NEW! CAPSULIZED™ TROUSERS

World's First
Innovation

CORDURA®
F A B R I C

An extremely tough and hard-wearing material, used to reinforce exposed parts such as pockets, knees and sleeves. It is also water and dirt repellent, easy to care for and retains its shape. It is a high technology fabric made with air-textured polyamide fibres able to meet the toughest standards of strength and durability. CORDURA® is a trademark of INVISTA Inc.

Work on your knees

The world's first work trouser with certified kneepads permanently welded into place. Durable and comfortable, these slim fit trousers are built for everyday use.

These long-lasting trousers feature an enhanced flexibility thanks to a 2-way stretch fabric and additional 4-way stretch panels at key stress points. CORDURA® reinforced holster, ruler and cargo pockets add a durable, everyday-carry functionality. Our new, lightweight, low-profile and welded-into-place Capsulized™ kneepads provide an ergonomic, always-on protection during the entire workday.

Available with or without holster pockets.

Instant access to your essentials.

The 4250 AllroundWork Tool Vest from Snickers Workwear provides quick and easy access to all your favourite tools whenever you need them.

While retaining all the smart functions of its predecessor, this upgraded version benefits from several new ergonomic features including improved ventilation.

Shoulder straps and belt for ergonomic usage.

The tool vest has a height-adjusting hook and loop fasteners on the shoulder straps to adjust the carrying height of the tool vest to the optimal comfort level. But to really ensure ergonomic and comfortable usage, a lot of focus has been put on the shoulder straps and the belt.

Plenty of pockets.

The vest is made of hardwearing yet extremely comfortable Dobby Pro fabric reinforced with nylon. Featuring plenty of pockets, such as nail and tool pockets, front holster pockets with tool loops, easy access angled rear holster pockets, breast pockets with a knife fastener and a padded cell phone compartment. All so tradesmen have easy access to their essentials.

Practical for all seasons.

The tool vest is easy to adjust using a built-in expansion section on the front. This means it can be expanded and worn over a t-shirt, sweatshirt or even the thickest of winter jackets.

AllroundWork     

4250 AllroundWork, Toolvest

Material: Dobby Pro. Hard-wearing yet extremely comfortable Nylon-reinforced fabric. 69% Polyamide, 31% cotton, 250g/m². Featuring 100% Cordura® - Polyamide reinforcements.

Recyclability means sustainability

We make durable workwear because we know that the longer our clothes last, the less impact they have. But to reduce that impact even further, we know that we need to attain a truly circular, textile-to-textile recyclability.

A good example of how we are currently working with textiles recycled in a closed-loop value chain are our new Zero-Waste socks. Made from more than 90% recycled textile-waste, these socks are not only highly durable and functional, but they are also pushing the boundaries of circular recyclability in the clothing industry. All of this means that our Zero-Waste socks are a great choice for environmentally-conscious craftspeople everywhere.

HEIQ SMART TEMP

HeiQ Smart Temp is a dynamic cooling technology that enables fabrics to respond to body heat. When your body temperature rises, the cooling function is activated - ensuring optimal comfort and performance. This innovative thermoregulation technology is OEKO-TEX® suited, bluesign® approved and ZDHC compliant.

Stay visible. Stay safe.

BEING HIGHLY VISIBLE CAN BE A LIFE-SAVER IN HAZARDOUS WORK ENVIRONMENTS.

High-visibility clothing is a vital part of personal protection when working in dim light conditions.

Our new wider range of high-vis garments offer a diverse choice of functionality and comfort for those working in these conditions.

We've restyled our most popular trousers and jackets to create high visibility versions, and have added the features that we know customers want, such as an integrated ID badge holder and heat-sealed reflective tape instead of sewn-on reflective strips.

This technology makes the material more supple, thus allowing greater ease of movement. We know that experienced and devoted wearers of our work trousers will appreciate the KneeGuard system, pre-shaped legs and amazingly comfortable fit that they're used to, and they can

rest assured that they'll be visible and safe while working.

For the summer months, when high visibility clothing can be a burden to wear, we offer styles with a new, airier structure that lets perspiration escape more easily.

HOW DOES IT WORK

The difference between fluorescent, reflective and contrast material.

The purpose of the **fluorescent** (usually yellow, orange and red neon colours) is to be visible in dusk, dawn and daylight as well as in fog or haze.

The **reflective** material, on the other hand, is designed to be visible while illuminated in dark conditions.

To be certified according to EN ISO 20471:2013, the **contrast** materials must be resistant to bleeding during washing so that they don't ruin the visibility of the garment's fluorescent and reflective materials.

6932 FlexiWork, High-Vis Work Trousers Holster Pockets+ CL2

Please see snickersworkwear.co.uk for more information on our High-Vis collection.

The difference between orange and yellow.

It's usually easier to spot a person wearing yellow fluorescent garments compared to orange. This is because yellow has higher luminous power than orange, meaning it appears brighter to the eye from a specific angle. In a white winter landscape, however, the opposite applies. This is because orange provides a higher contrast to a white background. So, although orange has lower luminance than a yellow fluorescent material, the orange colours is more visible in a winter landscape because of higher contrast. In this case, contrast trumps luminance.

Snickers Workwear Washing Advice

Keep clean to satisfy the standard & to increase the product's service life.

Your workwear and PPE garments must always be clean to be safe and satisfy the standard. Garments covered in dirt will significantly decrease visibility and other properties and may thereby put you in danger. Frequent washing will also help materials last much longer since dust and dirt may destroy fibres by abrasion. A longer service life for the product is good for both your finances and the environment. The flame and heat protection in protective clothing made of fabrics with inherent flame-resistant properties cannot be washed or worn out. In fact, regular washing ensures that the garments do not contain any dirt or flammable particles that will compromise the protective properties.

Materials.

To protect fabrics, reflective tapes and prints, turn the garments inside out before washing them.

Wool is a natural product that can keep itself clean; it does not need to be washed as often as cotton or man-made materials.

The garment's care instructions should be followed particularly carefully when washing rainwear. Some rainwear has sealed tapes that can be damaged during wash and dry cycles, and other rainwear garments must be tumble dried or ironed to renew the water resistance.

Never mix certified and non-certified garments.

You should never mix certified garments with non-certified garments in the same wash, since non-certified garments may bleed colours and/or chemicals that will damage the certified garments.

Damaged garments.

If the garment has been exposed to chemicals or heat/flame, it must be carefully examined to make sure that the fabric is undamaged. If a certified garment needs to be repaired, you must only use approved/certified materials and fabrics.

Please visit www.snickersworkwear.co.uk for sizing information

How to choose the right size

1. Measure

If you are planning on buying Snickers Workwear Trousers for the first time or you are changing trouser styles to 6 series, you should always re-measure before purchasing.

What are your body measurements? You will need to measure your waist and inside leg. To get the most accurate reading you should always ask somebody else to measure for you.

WAIST

Wrap the measuring tape firmly around your waist, against your skin or body-tight underwear.

INSIDE LEG

Measure without footwear on and firmly extend to the base of the foot.

2. Size Guide

Choose the style of trousers which you would like to purchase, and look up your sizes on the size guide as shown below. Please see 'What's Your Fit?' guide for more information.

Remember all measurements in the guide are body measurements, not the measurements of the garment.

| 6 Series Men's Trousers and Shorts Sizing Guide (applies to all trousers and shorts with a product code starting with the number 6) | | | | | | | | | | | | |
|--|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|----|
| WAIST | 30" | 31" | 33" | 35" | 36" | 38" | 39" | 41" | 44" | 47" | 50" | |
| LEG LENGTH | 28" | | 192 | 196 | 200 | 204 | 208 | 212 | | | | |
| | 30" | 88 | 92 | 96 | 100 | 104 | 108 | 112 | 116 | 120 | 124 | |
| | 32" | 44 | 46 | 48 | 50 | 52 | 54 | 56 | 58 | 60 | 62 | 64 |
| | 35" | | 146 | 148 | 150 | 152 | 154 | 156 | 158 | 160 | 162 | |
| | 37" | | | | 250 | 252 | 254 | 256 | 258 | | | |

Please note that other sizes may be available at a surcharge. Please ask your local retailer or contact Snickers Workwear for more information.

3. Try On

Try on the trousers to test the comfort and fit. As body shapes are varied you may find that you prefer to go either up or down in size or leg length depending on the type of fit that you feel the most comfortable in.

| MEN'S TOPS & JACKETS SIZING GUIDE | | | | | | | |
|-----------------------------------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|
| SIZE | XS | S | M | L | XL | XXL | XXXL |
| Snickers Workwear Product Code | 003 | 004 | 005 | 006 | 007 | 008 | 009 |
| CHEST (INCHES) | 30" - 33" | 33" - 36" | 36" - 39" | 39" - 43" | 43" - 46" | 46" - 52" | 52" - 58" |

See page 26 for women's size charts.

What's Your Fit?

The right fit and size is a matter of safety, comfort and protection. If the work trousers don't have the right fit or are too big or small, your kneepads, for example, will not stay in the right position to protect your knees.

Since our bodies are all different, Snickers Workwear offers three different fits – Slim fit, Regular fit and Loose fit – as well as one of the widest size ranges in the industry. With 71 different trouser sizes available, you can be sure to find a pair that fits your body perfectly, ensuring optimal protection.

Slim Fit

Slim fit garments are figure-hugging and quite tight, giving you a slimmer look. However, they are also soft, stretchy and follow your every move.

Regular Fit

The regular fit garments follow your body shape, but are not tight. There is room for air between the garment and your body.

Loose Fit

The loose fit garments sit securely at the waist as the regular fit but the legs are wider and airier. All trousers in the 3-series have loose fit.
