Klaaskickz Velcro Junior Football Boots

Klaaskickz Football Boots help children learn football easier & quicker through colours. They come with online training videos so any coach or parent can teach their kids the basics of football. There are 8 different parts of the foot you can use in football. Klaaskickz Football Boots make it easy for both the child learning the skill and the coach/parent. Pass with Green. Shoot with Blue. Say "No" to the Toe with Red. Both a Football Boot & a Training Aid. Klaaskickz Football Boots are made of comfortable synthetic fibres and have a soft insole. They are made with a technique called offset print that allows you to feel the design on the boots. Loved by kids under the age of 10. For Grass & Astro Use.

110+ global brand ambassadors...

1 Precision Fusion X Pro Negative Contact Duo

New negative specially designed to provide total comfort, whilst increasing your grip and feel for the ball. The stitching is inside the glove, leading to a much tighter and snug fit. DGT (Duo Grip Technology) tech inside the gloves. This added layer of ridged embossed latex inside the gloves gives you double the amount of grip, as not only the ball is in contact with latex, but so is your full hand. 4mm high performance Contact latex. Good in both wet and dry conditions with extreme gripping properties.

PERFORMANCE

torq
PERFORMANCE
NUTRITION

25
YEARS

torq

Established in 1999, British brand **TORQ** has its roots firmly entrenched in fitness consultancy, education and performance coaching, helping athletes to maximise their potential.

TORQ is research-driven, not marketing-led, and this is key to their philosophy. TORQ constantly review the latest sports science research and use it to formulate better, higher functioning products than any other brand in the market today.

TORQ use only the purest, most potent natural ingredients and where possible, products are both suitable for vegans and certified Organic by the Soil Association. TORQ do not use any chemical sweeteners, or artificial colours and when it comes to flavours and textures, performance nutrition has simply never tasted this good!

From football, netball and hockey to tennis, badminton and cricket, TORQ's

comprehensive range of fuelling, hydration and recovery products gives you the tools you need to meet and exceed your goals.

For recommendations on which TORQ products to consume and when to consume them, based on specific sports types, please see our guidelines on the next page.

WHY HYDRATE?

Optimal hydration is essential for general health and wellbeing, as well as offering benefits to exercise performance. Starting exercise in a well hydrated state boosts your physical and mental capacity, allowing you to complete your chosen sports more efficiently, for a longer period of time.

WHY FUEL?

Carbohydrate provides the fuel for exercise, allowing you to maintain your physical performance and delay fatigue. Fuelling your exercise results in a lower perceived effort as the fuel needed to perform is readily available. Fuelling during exercise can also support the recovery process by preventing the depletion of the body's fuel stores.

WHY RECOVER?

Choosing to consume a recovery drink post exercise will assist in the replenishment of your carbohydrate stores ready for your next session. Consuming a recovery drink immediately after exercise will support the growth and repair of damaged tissues, allowing you to become fitter and stronger quicker. Finally, the fluid within the beverage supports the rehydration process.
